

Pure One™ Environmental **X-OUT ODOR** green

Organic Formula Pet Odor Eliminator

Indoor & Outdoor

32 Fl. Oz (946.35 ml)

X-Out Odor™ **green** Organic Formula Pet Odor Eliminator
For Indoor or Outdoor Use!

DIRECTIONS: SHAKE WELL BEFORE USE. Do not allow temperature to exceed 120° F. (50° C). Spray X-OUT onto the surface to be deodorized, using 3 sprays per 2 sq. ft. Allow X-OUT to penetrate the area. Re-spray area when odor returns. Length of time between recurrences increases with each treatment. Spray in the air to eliminate airborne odors. X-out continues to work, long after the smell is gone.

PURE ONE X-Out ODOR Pet solves the problem of contaminates and biological imbalances that cause odors. This undesirable condition is caused by a lack of Oxygen, the proliferation of unwanted anaerobic bacteria, and the accumulation of undesirable organic matter. This condition exists due to the lack of natural stimulation from favorable aerobic microbes.

INGREDIENTS: PURE ONE X-Out ODOR Pet contains a unique concentration of organic sea-water cultivated plant extract and purified water. No harmful chemical additives. PURE ONE X-Out ODOR Pet stimulates the metabolism and growth of beneficial microorganisms (Aerobic Bacteria), and accelerates nature's biodegrading process at an exceedingly rapid rate.

Applying PURE ONE X-Out ODOR Pet on a prescribed basis helps break the unwanted Anaerobic Chain.

BENEFITS and USES

Not harmful to Animals or People
Fragrance Free - NO ODOR Cover Up
Prevents animals from "marking territory".
Eliminates odors from:
Pet Areas, Litter Boxes, Urine, Fecal Matter

NON-TOXIC + NON-HAZARDOUS
NON-FLAMMABLE + BIODEGRADABLE
